#### **BUDGET BOOK DEFINITIONS**

**Accrual:** An accrual is an accounting entry that recognizes revenue when earned and expenses when incurred. An accrual is made at the end of the fiscal year to ensure revenue and expenses are recorded in the appropriate fiscal year.

**Activity:** A component within a fund; usually a specific line of work performed to accomplish a function for which a governmental unit is responsible.

Amortization: The process of gradually extinguishing an asset on the books.

**Appropriation:** An appropriation is an authority to spend. It represents the authorization for the county to make expenditures/incur obligations for a specified purpose and period of time. An appropriation represents the authorized expenditure limit for a budget unit for the current fiscal year.

**Balanced Budget:** The annual operating budget will be structurally balanced upon adoption of the Board of Supervisors. Total revenues, including carry-over fund balances, will equal the total fund appropriation and reserves.

**Base Budget:** The base budget represents the prior year approved budget plus mandated cost adjustments such as across-the-board salary increases (MOU), retirement costs, risk management liabilities, and previous year's mid-year Board approved costs.

**Budgeted Staffing:** The number of equivalent positions funded in the budget unit. Also referred to as full-time equivalent (FTE).

**Budget Unit:** An organizational component which is represented by the combination of a fund and department into one unit for purposes of budgeting.

**Capital Project Funds:** Capital Project Funds are used to account for financial resources designated for the acquisition or construction of major capital facilities other than those financed by Enterprise and Internal Service Funds.

**Central Computer:** The Central Computer expense category is set up to allocate the Information Services Department's computer charges to departments based on usage. These are countywide costs for computer infrastructure such as email, wide area network, payroll processing, and software/hardware staff support. Each department's Central Computer budget amount is estimated at the beginning of the fiscal year by the Information Services Department and is billed based on that estimate. Next year's budget (2009-10) will be adjusted based upon the actual usage in 2008-09.

It is the method by which indirect support costs for services such as Human Resources, Payroll, Purchasing, etc. are allocated to departments. **GASB 34:** Governmental Accounting Standards Board (GASB), Statement 34 establishes requirements for the annual financial reports of state and local governments. The goal is to make annual reports easier to understand and more useful to people who use governmental financial information to make decisions.

There are many components of GASB 34, but as it relates to the budget, it is primarily composed of how services provided between county budget units are accounted for. GASB 34 specifies how payments for services should be accounted for (either as reimbursements or as departmental revenues). All transactions between departments within the same fund (i.e. general fund) are budgeted as reimbursements. While the net impact is zero, reclassifications between these two categories cause inconsistencies when comparing year-to-year budgets by specific expense or revenue categories.

**General Fund:** The General Fund is the predominate fund for financing county programs. It is used to account for revenues that are not specifically designated to be accounted for by any other fund. The primary sources of revenue for the general fund are property taxes and other taxes, state and federal aid, current services, and other revenue. The general fund is used as the major funding source for the administrative/executive, economic development, fiscal, human services, law and justice, and public and support services groups.

They are not full-time, regular county employees. PSEs are subject to an expedited recruiting process to accommodate additional workload or to handle one-time special projects. They do not receive the full range of benefits or have the civil service status of regular county employees.

**Realignment Funding (Health & Welfare):** In 1991-92 the state approved the Health & Welfare Realignment Program that involves a shift of program responsibilities from the state to the counties. This shift is funded through a corresponding shift of dedicated Sales Tax and Vehicle License Fee revenue.

**Reimbursements:** Amount received as a repayment of the cost of work, or service performed, or of other expenditures made, for or on behalf of another governmental unit or department. Reimbursements represent the recovery of expenditure and are considered a financing source.
